

Privacy Policy

Last Updated: March 31, 2025

Jatbeats ("the App") is a **Subsonic client** that allows users to connect to their own music servers for streaming and offline playback. We respect your privacy and do not collect, store, or share any personal data.

1. Information We Do Not Collect

- We do not collect or store **personal information**.
- We do not track **user activity** or analytics.
- We do not access or store **your music library**—all data stays on your connected Subsonic server.

2. Subsonic Server Connection

The App connects to **self-hosted Subsonic-compatible servers** (e.g., Navidrome, Airsonic) using credentials you provide. These credentials are stored locally on your device and are not shared with us.

3. Third-Party Services

Jatbeats does not use third-party analytics, tracking, or advertising services.

4. Data Security

Your connection to your **Subsonic server** is handled securely. However, we recommend using **SSL/TLS encryption** on your server for added security.

5. Changes to This Policy

We may update this Privacy Policy as needed. Any changes will be reflected here with a revised **"Last Updated"** date.

6. Contact Us

If you have any questions, please contact us at sureshsehrawat@gmail.com.
